About Sanjay Rungta Group of Institutions

Sanjay Rungta Group of Institutions has demonstrated how single minded dedication, focused perseverance, commitment and never-say-die attitude of the management together with the zeal and dedication of the faculty and the support of well-wishers can not only help to build an institution, but also ensure that it consolidates, grows and sprouts into a dynamic power emerging as a leading and the most preferred destination for quality education by students from all over the country and abroad.

About RCST

Rungta College of Science and Technology is under Rungta group of colleges- an initiative by Sanjay Rungta Group of Institutions . This college is accredited with B+ grade by NAAC and is affiliated to Hemchand Yadav University, Durg. College is designed and created with the prime motive of imparting quality education to facilitate and mould young minds for the future, to stay ahead. The institute runs many Graduate courses including Biotechnology, Microbiology, Computer Science, Computer Application, Business Administration, Commerce and Education while Post Graduate courses includes Biotechnology, Microbiology, Computer Science and Education. All the programs available in Rungta college are created in a way that they offer their own, distinct interpretation of intellectual growth and development. Students after successful completion of their study enter their respective fields with confidence and remarkable strength of knowledge.

About Durg, Bhilai

Durg is herald of Chhattisgarh's industrial development, cultural competence, social harmony and meaningful use of resources. Bhilai is also known as the Steel city of India. It is also known for its great culture and electric mix of people from different nooks and corners of India. Famous for its lush green atmosphere, chain of temples and historical relics the climate will be pleasant in the month of September. Bhilai is merely 40 Kms from Raipur, the Capital of Chhattisgarh. It is well connected by trains to all major cities of India situated on the Howrah- Mumbai Railway route. The nearest Airport Swami Vivekananda Airport at Raipur is approximately 50kms away.

Aim & Objective of the Conference

In past few decades Biotechnology research applications has shown a remarkable potential for future prosperity. However most of this knowledge is largely confined to the scientists and researchers working on that particular field. Chhattisgarh is among the richest State in terms of mineral resources, biospheres and available manpower in India and hence should be supported with the present global advances in the field of Biotechnology, in harnessing natural resources in an eco-friendly and sustainable manner. It is in this context, **Dept. of Biotechnology & Microbiology (RCST)**, proposed to hold a National Conference on **7th sep' 2018** in Bhilai (C.G). The conference is designed for the scientists, students, scholars, faculties and policy makers with an intention to share ideas/research and gather feedbacks on work in progress or completed contributions. This conference will further stimulate the critical thinking, interaction and learning on broad spectrum of issues related to sustainable utilization of bio resources and simultaneously enhance the capabilities of institutions in Chhattisgarh state.

Conference Theme

- Biotechnology in agriculture (Molecular Analysis and Genomics and Crop protection etc).
- Biotechnology in Industry and Environment (Plant tissue culture, Nanotechnology, Microbiology Innovations and techniques in sustainable use of Biotechnology and Conservation)
- Biotechnology in health care including disease diagnosis and management
- Development of natural products in healthcare based on indigenous knowledge and practices.
